BRIDGE DECK REPAIRS ON WINNICUT ROAD IN STRATHAM
WILL REQUIRE SINGLE LANE TRAFFIC FOR EIGHT WEEKS

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin the week of October 10, 2005 on the Winnicut Road Bridge over Winnicut Brook in Stratham.

These bridge deck repairs are expected to take eight weeks to complete and will require single-lane traffic on the bridge. Warning signs, concrete barriers and temporary signals will assist traffic through the work zone.

Motorists traveling in the area of Winnicut Road during this time period should seek alternative routes if possible. In the event of inclement weather, work will be postponed until the following work day.
